

Advanced Graphical User Interface for Motion Simulators

Testing and calibration solutions for sensors, inertial systems and components

- > Most user-friendly and intuitive interface on the market
- > Windows-based application available with a large display screen
- > Embedded database for easy configuration
- > Integrated temperature chamber control
- > Graphical script editor for stand-alone automatic operation
- > Remote control (RS-232, IEEE-488, Ethernet) using Wulfert or customized protocol
- > Auto-tuning^(*) and advanced data-logging functions when combined with **ProAxe Controller**

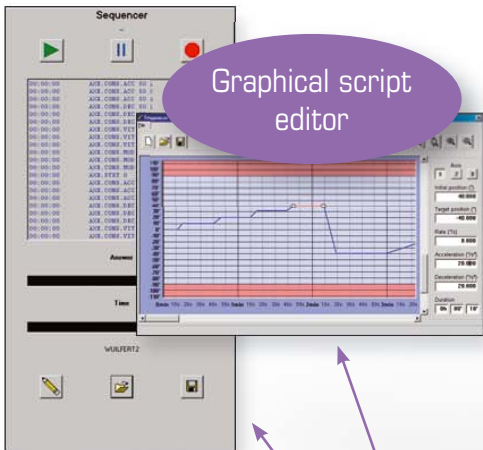

ProAxe Software

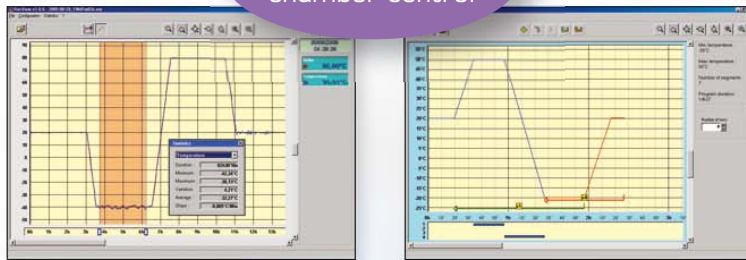

WULFERT

Expertise in motion

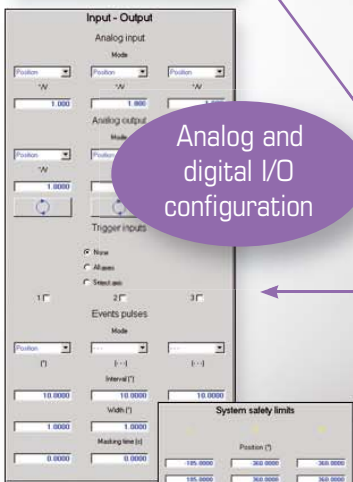

(*) patent pending

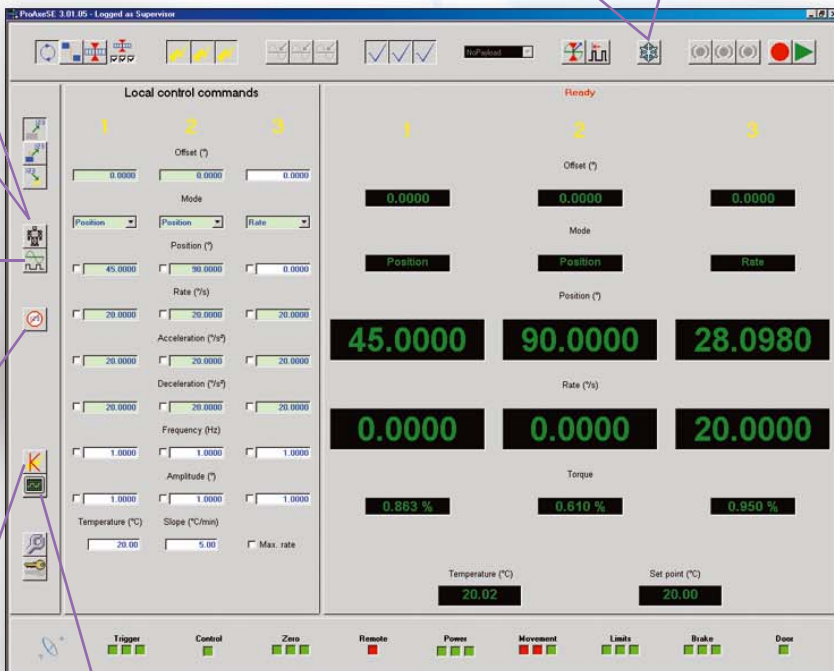

Graphical script editor

Temperature chamber control

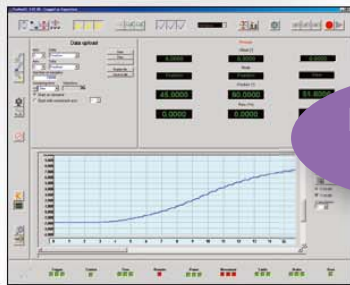

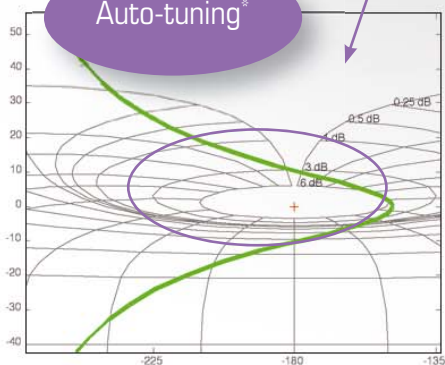

Analog and digital I/O configuration

Motion limit settings

Auto-tuning*

Real time data upload
